Fields & Hanson's Minstrels at Morton's Saturday Afternoon and Night.

The Bowling Green, Ky., Times of Jan. 24th, in speaking of Fields & Hanson's Minstrels, which appear at Morton's Saturday afternoon and night says:

Fields & Hanson's minstrel performance at Morton's Opera House last night to a crowded audience, and gave a first-class entertainment of that kind. The singing was good, the music well tuned, and all the specialties were first class. Taking it all in all it was a decided success, and deserved one of the performance having exceeded the visitors' most sanguine expectations. Their announcement at season will be all that will be sufficient to guarantee them another crowded house. We desire to call special attention to the singing of Mr. Chas. Vann, who has a very melodious and captivating voice.

ARDI GRAS AT NEW ORLEANS.

FEBRUARY 22, 1898.

For the above occasion the Illinois Central Railroad company will sell in Keta, February 16 to 21 inclusive, at one fare for the round trip, good returning until March 5. Two fast through trains, carrying Pullman Palace sleeping cars, will leave for Chicago, carrying information apply to J. T. Donovan, Commercial Agent, Paducah, Ky.

Group, the great enemy of childhood, accumulates at once to the south influence of Dr. Bell's Pine-Tar-Honey. Bronchial affections lose their danger when this great remedy is at hand. No home should be without it.

There cannot be anything made for five cents better than the Linwood cigar. It is home enterprise. Call for it.

Signs of...

The Season

Cold, Rain, and Snow, Umbrellas and Overshoes, Coughs and Colds.

These are the signs of the season, and they suggest the need of a remedy that will protect you from the cold and coughs that are so common in winter.

COMPOUND COUGH SYRUP

It is the thing to have when a cold is on, it stimulates the throat, soothes the inflamed membrane, and loosens the congested condition. It is something that everybody should have in the house to treat a cold at the beginning. Price 25c. per large bottle.

## ANOTHER DAY GONE BY,

And No Appointments for Kentucky. C. M. Barnett Un- easy About His Place. Collier Hustling.

Judge Lynch Holds Undisputed Sway in Alaska. Awful List of Accidents by Fire.

Washington, Jan. 3.—No appointments were made today for Kentucky. C. M. Barnett is getting uneasy because his appointment for surety of port is being held up. Collier, the other candidate, is hustling, and is evidently living some influence.

Lynch Law in Alaska. Seattle, Wash., Feb. 3.—The news has reached here of the lynching of Mark Tanner in Alaska. He killed two of his companions in camp. Tanner was a miner, and met his death at the hands of the vigilance committee.

Horrible List of Casualties. Louisville, Ky., Feb. 3.—Miss Foutche was burned to death today from her clothes catching fire from a grate.

Lexington, Ky., Feb. 3.—John Styles, a returned Klondike miner, was seriously burned today at his home here and may not recover.

Knoxville, Tenn., Feb. 3.—Mrs. Hardly, an aged woman residing in this city, died from three received while trying to save a child whose clothes had caught fire. The child still lives.

News has reached here of the death of Bonnie Verter, a young lady in Clay county, who was cremated in her burning home.

Versailles, Ky., Feb. 3.—The friends of Mrs. Boardley, of this city, today received word that she had just died in Washington, Ind., as the result of severe burns. She was visiting there.

The Evansville Port. Washington, Feb. 3.—The president today appointed Walter Vele surveyor of the port of Evansville.

Porto Rico Tobacco Excluded. Washington, D. C., February 3.—All Porto Rico tobacco has been for- bidden entry into Cuba, according to United States Consul Hauser at San Juan, in Porto Rico. Hereafter the tobacco has been shipped to Cuba and there made up into cigars branded "Habana."

The best cigars that have been coming to the United States during the past three years were made of Porto Rico tobacco. As a result of this order, which the consul says took effect January 1st last, the price of Porto Rico tobacco has greatly declined.

Transload of Supplies. San Francisco, Feb. 3.—One of the features of the demand for supplies growing out of the Klondike excitement was the arrival here of a special train from Chicago made up of seventeen cars, all loaded with canned meats, aggregating half a million pounds.

Berlin Shuts Out All American Fruit.

Berlin, Feb. 3.—The Prussian minister of finance, Dr. Miquel, issued a decree yesterday which goes into effect immediately, prohibiting the importation of every kind of American fresh fruit.

TO THE SOUTH.

Secretary Wilson Coming to Investigate Tobacco Production.

Washington, Feb. 3.—Secretary Wilson, of the Agricultural Department, will leave Washington in a week or ten days for a visit to the South, his objective points being North and South Carolina and Florida. Probably most of his time will be spent in the latter state, where Secretary Wilson wants to look personally into the question of the raising of high-grade tobacco. He believes the Florida country capable of producing tobacco about if not equal to that of the finest raised in Cuba and Sumatra. If this opinion is borne out, it may result in the purchase and planting under government supervision of foreign tobacco seed, with a view to determining just what can be accomplished under careful cultivation.

SUICIDE.

Supreme Court's Decision in an Important Matter.

Washington, Jan. 28.—The recent decision of Justice Harlan of the supreme court, involving the liability of an insurance company upon policies held by a man who in sound mind deliberately commits suicide is now published in full and is regarded as one of the greatest importance. A man by the name of Runk had policies to the amount of \$315,000 until a short time before his death, when he increased his insurance to \$500,000. He held an interest in a judicial trust, to which he had been unfaithful, and, being afraid of exposure and at the same time remorseful, ob-

lained insurance to the amount sufficient to reimburse those who would suffer by his default and provide for the necessities of his family, whereupon he deliberately took his own life. Some of the insurance companies resisted payment, and suit was brought, and the case was finally appealed to the supreme court, which held that if, from anger, pride, jealousy or a desire to escape from the life of a man intentionally takes his own life, there is no liability on the part of the insurance companies to pay the risks, because such an act is a violation of the conditions under which the policy is issued. But when a man's reasoning faculties are so impaired that he is not able to understand his moral obligations and appreciate the consequences of the act he is about to commit, such a death is not a violation of the contract and the insurance company is liable. In the Runk case it was perfectly clear that the suicide had a full and accurate comprehension of the character and the consequences of his act and that it was a willful attempt to transfer his obligations to innocent parties. This suicide is compared with the crime of arson, in which a man intentionally sets fire to his own house in order to recover its value from the insurers.

Wages Voluntarily Advanced. Ashtand, Wis., Feb. 3.—The Carnegie-Oliver Mining company, operating four of the largest iron mines on the Gogebic range, and employing 1,500 men, Tuesday announced an increase of 10 per cent. in the wages of all their employees. From expressions of other mine owners it is probable an increase in wages will shortly be made by other companies.

SPANISH GUERRILLAS DEFEATED.

Band Nearly Exterminated and Leader Killed—Train Dynamited.

Havana, Feb. 3.—It is reported here today that a fierce engagement took place four days ago at the sugar estate Constantino, owned by Senor Larrondo, near Escorial, Santa Clara Province. The Spanish guerrilla force was nearly exterminated by the insurgents, and its commander, Antonio Terrero, was killed.

Between Guara and Melena, Havana Province, a dynamite bomb placed by the insurgents was exploded. It destroyed a Spanish military train, killing several soldiers.

Saloon Screens Must Come Down at Richmond.

Richmond, Ky., Feb. 3.—There is a consternation among saloon-keepers here. The city council last night, by a decisive vote, ordered all screens to be removed from saloon doors and windows. This is the outcome of the hard fight made by the local option people to enforce the Sunday closing law.

WARY MR. EVANS.

Will Not Put Himself on Record as to His Candidacy.

Washington, Feb. 3.—A report that Congressman Evans, of Louisville, will not enter the race for congress again and that he will not ask for the nomination this year, has caused a wide circulation here. When seen yesterday Col. Evans said: "I will make such a statement there is absolutely no truth in the rumor."

FIFTEEN PERISH

In the Coast Storms East, and Financial Loss a Million.

Boston, Feb. 3.—The financial loss caused by the storm which swept down upon the greater part of New England Monday night and Tuesday will amount to over \$1,000,000. Reports of stranded vessels along the coast continue to come in, and it is thought at least fifteen lives were lost by wrecks at various points. The loss to the smaller fishing craft of Gloucester and vicinity is particularly heavy.

STEAMBOAT POOL

To Purchase Old Anchor Lines and Reopen the System.

St. Louis, Mo., Feb. 3.—An agreement has been reached by the St. Louis & Tennessee River Packet company, the Eagle Packet company, and the Lee line of manufacturers, and a line of steamers have been put on to take the place of the defunct Anchor line for all points between this city and Memphis. The steamers will leave twice a week, Tuesdays and Fridays.

It is also reported that at the United States marshal's sale of the Anchor line property next Monday, February 17th, the same pool may purchase the three Anchor line boats and reopen the Anchor line system all the way from New Orleans.

ONLY ONE CASE.

Short docket in Judge Sanders' Court.

There was but one case in the police court today. Janah Futrell, colored, was charged with jumping on and off street cars. He pleaded guilty and was fined \$5 and costs.

The case against Max Woods for attempted highway robbery was continued until tomorrow morning.

## MUNICIPAL MATTERS.

No Council Meeting Last Night Probably One Tomorrow Night—The Sewerage Question.

Mayor Lang Ships a Man to Tennessee—A Shanty-Boater's Retort to the Mayor.

No council meeting was held last night, although the meeting Monday night was adjourned to meet last night. This was because the sewerage committee was not ready to report on the question. Chairman Elliott thinks the meeting will be held tomorrow night, certainly not earlier.

The question of allowing Contractor White to sub-let the sewerage contract will be passed upon, favorably, no doubt, as the contractor's bondmen have given written consent to it. It is rumored that the council would not ratify the transference of the contract, it being averred that City Attorney Lightfoot gave it as his opinion that such a transference would be a violation of the law.

Mayor Lang today served notice on the owner of the sand boat moored at the Elizabeth street wharf, to vacate, as there was some complaint about their position.

A woman tied her shanty boat to the Sixth street bridge over Island creek the other day. The river was almost up to the bridge, which is shaky when unladen by boats and such things. The rough river bobbed the boat up and down in such a manner that the bridge was pulled and bawled about in a most alarming manner. The boat also loomed up as a bug-bear to skittish horses.

Mayor Lang sent the street inspector up to order her away. She went word back that if the mayor knew who she was he would never send her such an order that she would not move. At last accounts she held the fort.

The board of health met yesterday afternoon, and Mayor Lang's correspondence on the sewerage question was submitted.

Evansville has a system of reporting the condition of the electric light by the police something similar to the one in vogue in Paducah, the only difference being that Evansville does not own her electric plant, and exacts a fine from the company for every light fails to shine. The Tribune says:

The more wind there is, the less the city has to pay for its electric lights. Off a windy night the car-bons are displaced and the light goes out. The corporation keeps a close lookout for all street lamps which are not burning and make a daily report to Chief Pritchett of the lamps which were found in bad condition on their beat. The electric light company forfeits to the city three cents an hour for all nights which do not burn. Last month this forfeit amounted to \$20, which will be deducted when the city makes its settlement with the electric light company. For the last few weeks the lamps found not burning have averaged about ten a night.

Mayor Lang decided, a day or two ago, to secure photographs of the councilmen, city clerk and attorney and himself, and have them enlarged and hung up in his law office.

He thought they would be a pretty fair advertisement, and after selecting the place where they were to be suspended in the office, tied himself down to an earnest effort to ascertain what the risks of the pictures would cost.

"Well," replied the artist, "I tell you what I'll do. I'll make you those pictures for \$75." The mayor told him he'd see him later.

This was a city lawyer's pay day, and as a result several hundred dollars is in circulation that was not yesterday.

Want Marriages with Protestants Stopped.

New York, Feb. 2.—Catholic laymen of the United States are about to present to Mr. Martinielli a petition urging him to issue a pronouncement regulating the marriages of Catholics to Protestants, says the Washington correspondent of the Journal.

The preliminary papers of this petition have already arrived in this city, and are in the hands of a committee awaiting the approval of certain bishops before being placed in the hands of the delegate.

The petitioners desire that Mr. Martinielli make universal rules regarding the conditions on which the Catholic church will permit one of its members to marry a non-Catholic.

and also the nature of the ceremonies with which such a marriage may be attended.

The Catholic laity has long contemplated this step, but the present agitation has been hastened by Archbishop Kane, of St. Louis. He recently arrived from Rome bringing with him what he says is a Papal brief regulating the laws of matrimony in the metropolitan area of St. Louis. Mr. Kane was last fall summoned to appear before the Propaganda and explain the dissatisfaction among his people concerning his ruling regarding what are called in church parlance "mixed marriages." He has issued a mandate asking Catholic alliances with Protestants so difficult as to be almost impossible. They had to be celebrated in the pastorate of the parish church, and must not be accompanied by any elaborate display.

An officiating clergyman was always forbidden to attend any reception following such ceremonies. The people of St. Louis rebelled against the new regulations and appealed to the Apostolic delegate.

Archbishop Kane will shortly issue a new pastoral to which he will announce the rules henceforth to be served under his jurisdiction. If Archbishop Kane is vested with such authority Catholic laymen are anxious that every diocese in the United States be provided with specific rules.

Father Bouchet Talks.

The Louisville Post of yesterday says: "The Rt. Rev. Father Bouchet, vicar general of this diocese, was seen this morning. He said that he knew of no such petitions as the ones recently being circulated in Louisville. I know of no such movement. However, he had received an order from the Rt. Rev. Bishop McCloskey a week and a half ago calling his attention to the provisions adopted at the Council of Trent, held nearly 300 years ago, in which it was provided that all bans must be published at least three weeks before marriage. He said that Bishop McCloskey instructed him to see that these provisions were strictly adhered to, and that no marriage be solemnized where the bans had not been published as required."

Father Bouchet said that this would operate as a measure to prevent the marriage of Catholics and those who were members of that church, but the main reason for the order being issued was that the clergy was frequently imposed upon by persons who had been divorced or who were not entitled to have the rites of marriage solemnized by the church.

STATE LEGISLATURE.

Frankfort, Ky., Feb. 2.—(Special to Louisville Post.)—The session started off on a gloomy day with a rain, and was soon up to its eyes in a discussion which came up over the unexpected subject which was proposed. Petitions were numerous, some of them were of such importance as to occupy much of the time of the lawmakers in disposing of them.

Mr. Hollis opened the ball with a lengthy petition from the Central Union at Lexington, asking passage of the act making it unlawful for corporations to discriminate against members of labor organizations; also the bills reducing car fares to 10 cents; that for a new school, and the act making the Monday in September (Labor Day) a legal holiday.

At 11 o'clock the House took up Mr. Cooke's bill regulating the Association Press. Mr. Cooke made a long speech for his bill. He spoke for the Associated Press on the ground that it was backed by every trust in the country.

Attaining Mr. Cooke said the Associated Press acted exaggeratedly in its selection returns until they could be fixed up as to defeat Bryan. He went into the terms on which the Associated Press should be regulated. He said he asked nothing of the ground of the Louisville Post, but asked the passage of the bill on the ground of public policy.

The House passed the bill regulating the Associated Press by 51 yeas.

MARKETS.

Chicago, Feb. 3.—The markets today ranged as follows:

May wheat—Opened at 95, touched and closed at 94 1/2.

May corn—Opened at 25 1/2, highest closing at 25.

## Gov. Mount, of Indiana, is about

to give an example of justice that

will undoubtedly put an end to the

operations of lynch law in that state.

Several months ago a wholesale

lynching occurred in that state which

astounded and horrified the whole

country. An attempt was made in

the usual perfunctory manner to dis-

cover and arrest the members of the

mob, and with the usual results, and

to all outward appearances the whole

affair was dropped. The announce-

ment was now made however that

Governor Mount has at no time

ceased his search for the members of

the mob and that now he has ac-

quired evidence that will convict fifty

men of complicity in the lynching.

They will be arrested and indicted

for murder, and those who know

Gov. Mount say that they will be

prosecuted and convicted if possible.

Such executive action as this will

have a tendency to render lynch law

unpopular in Indiana.

Representative John Marquette,

of Pendleton county, has an impor-

tant bill to be introduced, predicated

on the passage of the China bill.

His bill will establish a State printing

office in the penitentiary to be oper-

ated by convict labor, for the publi-

cation of school text books, for use

in common schools, the books to be

sold at actual cost price. The bill

further provides for printing such

State printing as may be done by the

convicts within the walls. Mr. Mar-

quette thinks this will go a great way

toward the cheapening of school

books, and at the same time will give

advantageous employment to con-

victs. If there is any reason more

than another why the China School

Book bill should not pass, it is this

plan to manufacture our school books

within prison walls. We believe

that the practice of bringing convict

labor into competition with free labor

is radically wrong in every economic

point from which it can be viewed.

It does not seem possible that the

Legislature of Kentucky can be so

short-sighted as to turn over the

school books of the state to convict

manufacturers.

It is taken for granted that Sen-

ator Teller "had an object" in in-

troducing his resolution, and there is

not a bit of doubt but that the House

will not let the resolution pass, and

in the resolution was put to

sleep.

The fondness of Democrats for

economy is seen in the creation of

salaries by the present Legisla-

ture. Three Prison Commissioners,

three Election Commissioners, three

State Board of Charity Commis-

sioners, are some of the fat plums

that this Legislature is preparing for

the faithful.

The good people of Carlisle coun-

ty, so it is said, are considering the

plan of having the name of the coun-

ty changed from Carlisle to Bryan,

the county having been named after

John G. Carlisle when it was created

in 1886. We would suggest that the

present legislature make the

change, for Bryan will be a back-

number by the time the legislature

meets again.

MEETINGS of railroad men were held

Sunday in all the larger cities in the

state for the purpose of adopting res-

olutions protesting against the pas-

## AROUND THE WORLD.

The Trip Can Now Be Made in

Twenty-Three Days.

A German railway paper, with one of

those compound German names, too-

long-to-remembering-of-the-perma-

nent-hypocrite for railroads, says that

when the Trans-Siberian railway has

been completed the tour of the world

can be made in 33 days. This is con-

siderably less than half the time in

which Julius Verne accomplished it.

The following is the table from the

German paper with the title name:

Bremen to St. Petersburg, by the

Trans-Siberian, 14 days.

St. Petersburg to San Francisco, by

the Trans-Pacific, 10 days.

San Francisco to New York, by the

Trans-Atlantic, 10 days.

New York to Bremen, by the

Trans-Atlantic, 10 days.

Total, 33 days.

A correspondent of the French

Revue Scientifique, translated in the

Literary Digest, however, brings the

total down to 23 days by simply assum-

ing a higher speed for the Trans-Pa-

cific. He assumes a speed of 27

miles an hour, instead of 15 miles,

the former speed having been recently

obtained in England by torpedo boats,

and for railways instead of a speed of

20 kilometers (12 1/2 miles) an hour, that

of 100 kilometers (62 miles), which

will be attained whenever we wish to un-

dertake the expenses of relaying our

permanent ways. We shall have the

following figures:

From Bremen to Paris, via Asia, 8 days.

From Paris to San Francisco, 14 days.

From San Francisco to New York, 10 days.

From New York to Bremen, 10 days.

Total, 23 days.

It has been remarked that some

horses could trot a good deal faster

than the earth could travel on a road-

track, and it may be suspected that

steamships will never make quite as

# WONDERFUL MEDICINE FREE

PROMPTLY SENT TO EVERY MAN WHO NEEDS  
A GENERAL BRACING UP.

## It Brings Perfect Manhood to All

The Greatest Discovery of the Famous  
**PHYSICIANS' INSTITUTE**  
of Chicago, Ill.

GRATUITOUSLY, GLADLY SENT to all men who need  
it and who will write for it.

A large percentage of the men of today are sadly in need of the right  
kind of moral treatment for weakness peculiar to men. Many cases are  
due to early vice, others to excesses while many of the cases are due to  
overwork, excessive sexual excitement, excessive drinking.
